

# Ramani Vishnu

## Senior Software Engineer

✉ ramanishree2597@gmail.com ☎ +91 9677217664 📍 Chennai 🔗 LinkedIn 🐙 Github 📁 Portfolio

### Profile

Frontend/UI developer with **4 years of experience**, offering impactful web solutions and skilled in developing and testing responsive web applications using an array of technologies. Having strong interpersonal skills and the ability to communicate and collaborate with different team members to gather and provide information when required, extensive experience in gathering business requirements, designing process and system improvements to increase productivity, and self-motivated with a strong analytical mind alongside the ability to recognize and develop innovative ideas. Desiring to combine robust technical skills with an intensive background as a front-end developer at a challenging organization.

### Professional Experience

#### Senior Software Engineer, ValueLabs

2020 – present | Hyderabad, India

##### Development

- Developed dynamic and cross browser compatible webpages using React, Redux, Vue.js, Vuex, HTML, CSS, SCSS, JSX, JavaScript with DOM manipulation(ES6).
- Involved in the complete project life cycle from implementation to integration.
- Utilized Vuex and Redux for state management and maintained a scalable and maintainable codebase, delivering rich user experiences and build applications using Webpack.
- Collaborated with cross-functional teams (designers, backend developers, and product owners) with strong communication and interpersonal skills, to deliver high-quality user interfaces.
- Assisted in troubleshooting and debugging to resolve UI-related issues by problem-solving ability.
- Actively participated in Agile development methodologies, including daily stand-ups, sprint planning, and retrospective meetings.
- Integrated RESTful APIs using Axios for data retrieval and manipulation.

##### Design

- Developed pixel perfect designs using SCSS and leveraging design tools like Figma and Zeplin.
- Enhanced UI using Chrome extensions and dev tools for increased design versatility.
- Ensured compliance with SEO best practices(CVV) and Accessibility Guidelines as per google standards.

##### Deployment and testing

- Expertise in version control system(Git) and CI/CD process in GitLab.
- Utilized PostMan for testing REST APIs.
- Performed code reviews and bug fixes, which resulted in increased performance.
- Independently handled deployment across multiple environments and conducted performance testing.
- Contributed to manual and automation testing (cypress).executing test cases in TestRail.

---

## Education

---

**B.Tech - Information Technology,**  
*QIS Institute of Technology*

2016 – 2020 | Ongole, India

CGPA: 7.8

---

## Skills

---

### Front-end technologies

Vue, Vuex, React, React Hooks, Redux, HTML, CSS, SCSS, Bootstrap and JavaScript

### Performance Optimization

CWV

### API Integration

RESTful APIs and Axios

### Design Tools

Figma and Zeplin.

### Collaboration Tools

RingCentral, Teams and Slack

### Version Control

GIT

### Testing

Postman and Cypress

### Viewport

Mobile(iphone), tablet and desktop

### Build Tools

WebPack

### Project

### Management Tools

Jira, Youtrack and Confluence

### Agile Methodologies

---

## Personal Project

---

### Portfolio

The portfolio showcases links to the projects and work I've completed, illustrating my proficiency and experience across various tech stacks. I've developed applications utilizing Vue, Vuex, React, Redux, HTML, JSX, SCSS, Axios, and CWV. Throughout the development process, I prioritized ensuring both browser compatibility and responsiveness across mobile and desktop platforms, highlighting my commitment to delivering high-quality, user-friendly solutions
