🪪 Profile

Frontend/UI developer with **4 years of experience**, offering impactful web solutions and skilled in developing and testing responsive web applications using an array of technologies. Having strong interpersonal skills and the ability to communicate and collaborate with different team members to gather and provide information when required, extensive experience in gathering business requirements, designing process and system improvements to increase productivity, and self-motivated with a strong analytical mind alongside the ability to recognize and develop innovative ideas. Desiring to combine robust technical skills with an intensive background as a front-end developer at a challenging organization.

💼 Professional Experience

Senior Software Engineer, *ValueLabs*   2020 – present | Hyderabad, India

Development

- Developed dynamic and cross browser compatible webpages using React, Redux, Vue.js, Vuex, HTML, CSS, SCSS,JSX, JavaScript with DOM manipulation(ES6).
- Involved in the complete project life cycle from implementation to integration.
- Utilized Vuex and Redux for state management and maintained a scalable and maintainable codebase, delivering rich user experiences and build applications using Webpack.
- Collaborated with cross-functional teams (designers, backend developers, and product owners) with strong communication and interpersonal skills, to deliver high-quality user interfaces.
- Assisted in troubleshooting and debugging to resolve UI-related issues by problem-solving ability.
- Actively participated in Agile development methodologies, including daily stand-ups, sprint planning, and retrospective meetings.
- Integrated RESTful APIs using Axios for data retrieval and manipulation.

Design

- Developed pixel perfect designs using SCSS and leveraging design tools like Figma and Zeplin.
- Enhanced UI using Chrome extensions and dev tools for increased design versatility.
- Ensured compliance with SEO best practices(CWV) and Accessibility Guidelines as per google standards.

Deployment and testing

- Expertise in version control system(Git) and CI/CD process in GitLab.
- Utilized PostMan for testing REST APIs.
- Performed code reviews and bug fixes, which resulted in increased performance.
- Independently handled deployment across multiple environments and conducted performance testing.
- Contributed to manual and automation testing (cypress).executing test cases in TestRail.

🎓 Education

B.Tech - Information Technology,
QIS Institute of Technology
    CGPA: 7.8

2016 – 2020 | Ongole, India

🧠 Skills

Front-end technologies
    React, React Hooks, Redux, Vue, Vuex, HTML, CSS, SCSS, Bootstrap and JavaScript

Performance Optimization
    CWV

Agile Methodologies

API Integration
    RESTful APIs and Axios

Design Tools
    Figma and Zeplin.

Collaboration Tools
    RingCentral, Teams and Slack

Version Control
    GIT

Testing
    Postman and Cypress

Viewport
    Mobile(iphone), tablet and desktop

Build Tools
    WebPack

Project Management Tools
    Jira,Youtrack and Confluence

🧠 Personal Project

TMDB Website ↗

The project is a cloned website, developed using React, Redux Toolkit, JSX,SCSS, Axios, and CWV. Ensuring both browser compatibility and responsiveness across mobile and desktop platforms was a key focus during development

📜 Certificates

React- ↗
    from Namasate React
